Concerning the decision of **9** ✍ \_\_\_\_\_

N **10** ✍ \_\_\_\_\_

### I) Petitions

1. The SEM's decision is to be revoked.
2. Refugee status is to be recognised and asylum to be granted.
3. It is to be established that implementation of deportation is inadmissible, unreasonable and impossible, and temporary acceptance is to be granted.
4. Free legal proceedings are to be granted, the request for an advance payment to cover costs is to be waived and an official legal adviser is to be appointed.
5. Evt. The delaying effect is to be restored.

- subject to any awards made as to costs -

### II) Statement of justification

#### 1. Refugee status, granting of asylum, entering

Persecution or a well-founded fear of future persecution exists in accordance with article 3 of the Asylum Law and the application for asylum should be thoroughly checked:

**2. Implementation of deportation is impracticable**

Apart from the reasons already mentioned, the following additional reasons speak against implementing deportation:

**3. Free legal proceedings and appointment of an official legal adviser**

The lodged petitions are not completely hopeless and the party concerned is destitute. Therefore an application for the costs for legal proceedings and for the request for an advance payment towards the costs to be waived is being lodged.

In view of the short deadline for an appeal, the restriction of liberty, the legal complexity of the matter and the appellant's ignorance of the legal system, representation of the party dependant on social security by a person versed in the law is advisable. Therefore an application for an official legal representative to be assigned to the case is being lodged.

The statement of justification for the appeal is herewith complete. The right to lodge further petitions and submit evidence subsequently is explicitly reserved.

Thank you for your attention and upholding the petitions.
